Instructions for Installation and Care of Honda Talon Soft Rear Window **HO-TALON-RW01**

Notice: Do not smoke inside the cab or expose the enclosure to direct flames. Cab is Flammable.

1. Be sure to read these instructions thoroughly before opening and installing the Honda Talon Soft Rear Window.
2. Check over the parts included in the carton with the parts list shown below:

2" Velcro hook strips	6 each-----3" Long
2" Velcro hook strips	2 each-----12" Long
2" Velcro hook strips	2 each-----20" Long
3. Along the top of the Rear Window you will see 6 double-sided Velcro strips. At each of these, place a 3" adhesive hook strip in the inside of the roll cage. This holds the double-sided strip in place. See images below

4. Down the sides you will see Velcro loop sewn to the rear window. Take the two 20" adhesive hook strips and place them on the roll cage down the back side so that the hook is facing the rear of the Talon. See picture below

5. Lastly place the two 12" adhesive hook strips behind the seats as shown in the picture below.

6. Then attach the bottom of the rear window and that concludes your installation.
